

Radial Bubble Compression Tool

CPLCRBC-B, CPLCRBC-BR

Belden offers high quality, easy to use tools designed to deliver reliable installation of Double Bubble® 360° compression connectors.

Installation Tool: CPLCRBC-B, CPLCRBC-BR

The patented “Double Bubble®” connection guarantees superior protection against moisture migration, signal ingress/egress, and eliminates poor signal quality due to the elements. The connectors are ideal for security cameras and other exposed wiring installations.

Features:

- Manufactured from 4100 Series Aircraft Grade Chromoly Alloy for Maximum Strength and Durability
- Creates a Secure, Permanent “Double Bubble®” Connection
- TRUE 360° Compression Technology
- Fixed Compression Dies in the RBC Tool Compress a Wide Variety of Connectors
- Self-Adjusting Plunger Head Provides a Precise and Constant Compression Each and Every Time
- Tool Works Exclusively with Belden’s Line of Double Bubble® Connectors

CPLCRBC-BR Includes:

- One Interchangeable Tip for Compression of F and RCA Type Connectors

Install These Types of Double Bubble™ Connectors:

- F, RCA and BNC Connectors
- RG59 and RG6 Sizes
- RGB/Mini Coax 23-24 AWG and 25-26 AWG Sizes
- Plenum and Security (CCTV) Sizes
- One-Piece High Definition BNC Connectors
- Intelligent Transportation Systems Connectors
- DS3 and DS4 Cable Connectors
